It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Unless CRISC materials have changed in the past 5 years, they are extremely boring so my usual advice is to not operate any machinery after reading their review manual. Coffee was my best resource when going through their stuff. Depending on your experience and since you have a CISSP, the review manual and qae are really all that most people need.
