Iso Guide 31

ISO/Guide 31:2015 is intended to help reference material (RM) producers in preparing clear and concise documentation to accompany an RM. It lists and explains mandatory, recommended and other categories of information to be considered in the preparation of product information sheets and RM certificates. This information can be used by RM users and other stakeholders in confirming the suitability of an RM or certified reference material (CRM).

ISO Guide 31 - Reference materials — Contents of certificates, labels and accompanying documentation. The ISO Committee on Reference Materials (ISO/REMCO) recognised the importance of the documentation that accompanies a reference material as early as 1981 when the first edition of ISO Guide 31 was published. The third edition of the Guide that was published recently considers the appropriate accompanying documentation for all types of reference materials, i.e. CRMs and non-certified RMs.
