Life After People is a television series on which scientists, mechanical engineers, and other experts speculate about what might become of Earth if humanity instantly disappeared. The featured experts also talk about the impact of human absence on the environment and the vestiges of civilization thus left behind.

Life After People - Wikipedia

Life After People starts out promisingly enough and certainly manages to engage viewers emotionally by playing on our concern over the fate of house pets. And, for the most part, I found the entire show interesting. I particularly liked the visit to the abandoned town near Chernobyl.
